**Bridging the Gap: When Generations Collide**

This workshop creates awareness and understanding of what drives the attitudes and values prevalent at work today – all impacting success! Age stereotypes will be dispelled as participants learn the effect generational “*reference points*” have had on shaping the differing values, attitudes and behavior between themselves and each other – and they’re all different!

## PRESIDENT'S MESSAGE

Annette Elich-Parker – [aparker@waidb.com](mailto:aparker@waidb.com)

March for NAWIC always comes in like a LIONESS. WIC Week is from the 7<sup>th</sup> to the 13<sup>th</sup> but we are starting early when we will gather at the Construction Career Center to participate along with MOWIT in the Networking Event for the young ladies. I'm looking forward to their enthusiasm. I will also have the privilege of presenting them with the \$2,500 grant for this year. There are also other activities planned for WIC Week and I hope to see many of you at one or more these events, Happy Hour, Construction, Monthly Meeting.

I am in my 6<sup>th</sup> month serving as President, time flies by quickly when you're having fun. It has been an eventful 6 months and I have learned an immense amount. It doesn't seem possible but it is already time to look forward to next year - we will elect our nominating committee at the March meeting. If you can serve on this committee please e-mail me. You don't have to be present at the meeting to be elected to the committee, but I do have to have an acknowledgement that you are willing to do this important task.

Thank you all for your support thus far and for the rest of the year

Annette

Diane Grimsley was welcomed at the February meeting. See page 4 for her contact information.

# Canstruction 2010

Stacey Madsen - [SLMadsen@tarltoncorp.com](mailto:SLMadsen@tarltoncorp.com)

This has been the most successful canstruction yet...and we haven't even built the structure! We have had amazing contributions which puts us at \$2,275 to date! A pre-build took place on March 4, 2010 at Tarlton's main office. The actual build day will be March 23 at the Missouri History Museum Forest Park, hence the reasoning for the theme – Missouri History. We chose the Bevo Mill as our Missouri History because we believe that *with hope in our hearts and wind in our windmill...we build to banish hunger*. We encourage you to be a part of the event in any way that you can, if you are not able to build with us, stop by and see all of the structures and bring a few cans to donate to the local food pantries. The structures will be in place until April 5, 2010.
