PRESIDENT'S MESSAGE

This space is not large enough to hold my gratitude for the support I have been given over the last two years. My Board, my committee chairs, co-chairs and the committee members have all been awesome. You have made me look so good!!!

We have had some great times. We did some great things. And the key word is WE. Together the challenges were met; together the goals were accomplished; together the chapter moved forward; together we persevered, we dared, we believed.

I urge each of you to reap the benefits of active membership. You can gain personal insight, personal and professional growth, develop leadership skills, and make a difference. The rewards received from participation are huge.

A chapter needs the support of all the members to move forward and be a viable part of the construction industry. Be a force in our growth – Participate...run for office, chair a committee, serve on a committee, attend the events, come to a meeting. Reap the rewards; you will benefit and the chapter will soar.

Thanks for the opportunity. I feel so blessed to have been a part of this wonderful chapter. I have learned so much, developed so many skills and had so much fun. It has been a true pleasure to serve.
